

TOM JUNIOR

This version of TOM is developed specifically for environments with special demands on design. To fit in perfectly in your business, TOM Junior is covered with stylish wooden boards and the height is significantly reduced.

WOODEN BOARDS

This TOM is built into a case of wooden boards (MDF) with a beautiful smooth beech colored surface, which is resilient and easy to wipe clean on a daily basis. To further facilitate cleaning, TOM Jr is mounted on castors. Beech is the standard color and other options are on demand.

EXTRA LOW HEIGHT

TOM is already a compact size unit and in this version, we have reduced the height to only 4' 3"! It means TOM Jr is 5'9" lower than the standard version and it provides excellent placement opportunities.

BUILT TO FIT IN HARMONIZES WITH YOUR DESIGN

DIMENSIONS						CAPACITY
WIDTH	DEPTH	HEIGHT*	HEIGHT TO SHUTTER	MACHINE WEIGHT	POWER	COMPACTION RATIO
